

LIGHTING SOLUTIONS FOR
RETAIL

teamtronic

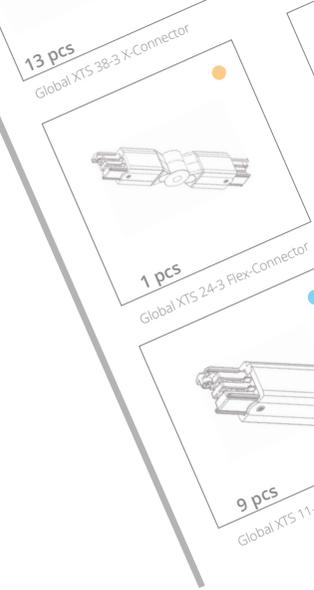

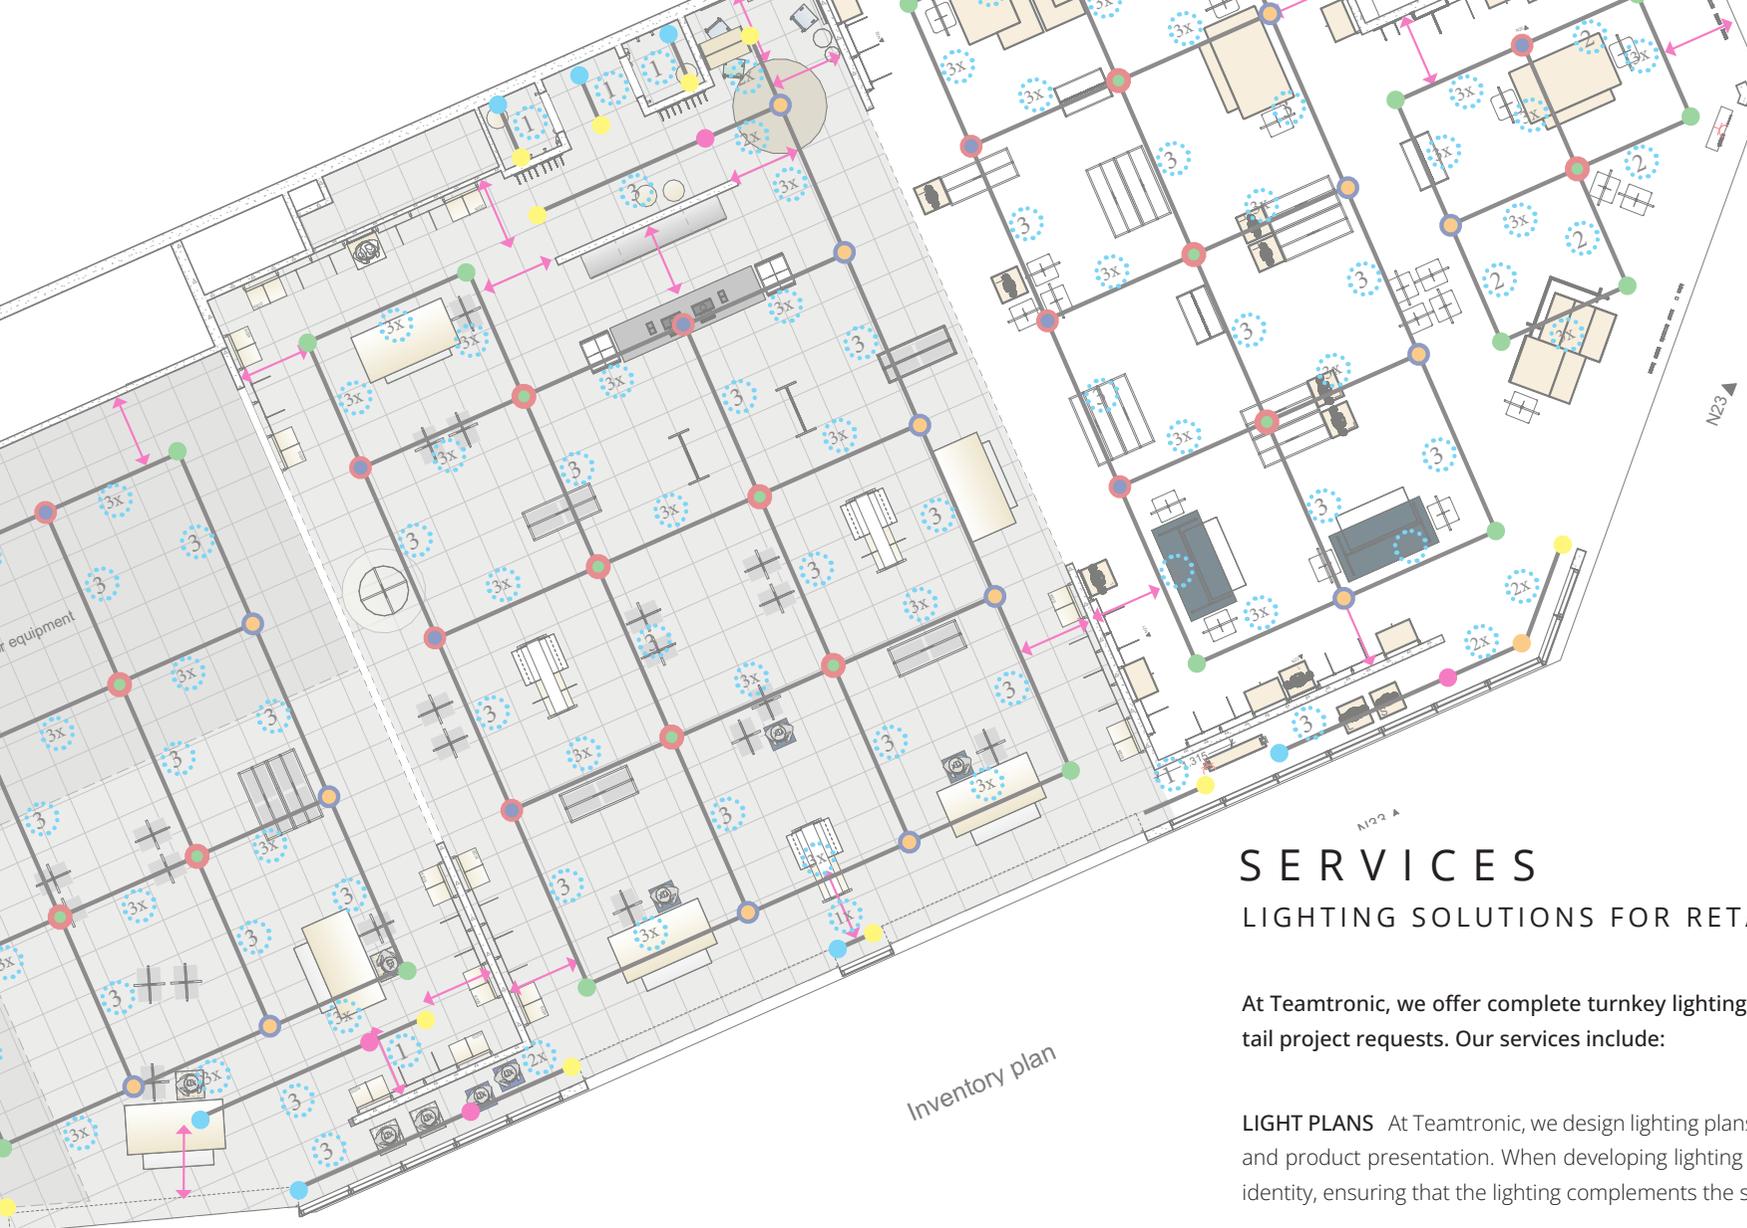

RETAIL

THE VALUE OF LIGHTING

Proper lighting plays a crucial and often overlooked role in retail. It is essential for enhancing customer experience, product presentation, and aligning with store concepts and brands. Additionally, efficient lighting can help reduce energy and operational costs.

SERVICES

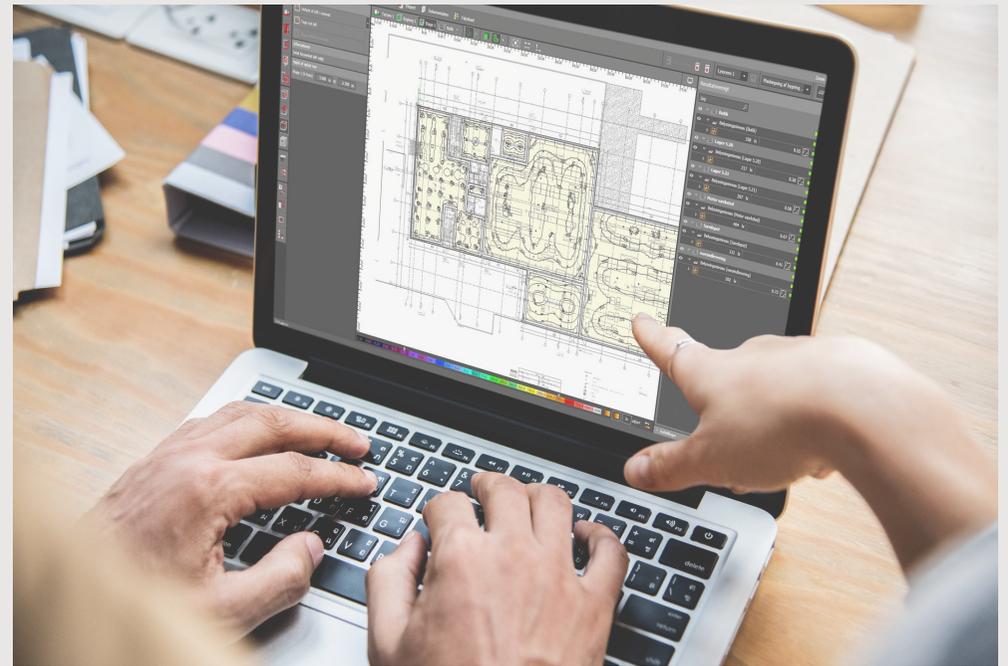

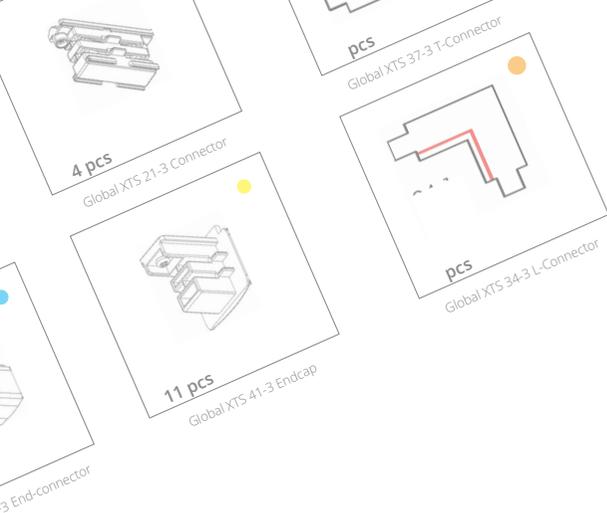

LIGHTING SOLUTIONS FOR RETAIL

At Teamtronic, we offer complete turnkey lighting solutions tailored to specific retail project requests. Our services include:

LIGHT PLANS At Teamtronic, we design lighting plans focused on customer experience and product presentation. When developing lighting plans, we consider the brand and identity, ensuring that the lighting complements the store's concept.

PROJECT PLANNING In preparing lighting plans, we provide a complete inventory of spots, tracks, fittings, and mounts. In short, we offer a comprehensive overview of all materials and accessories required for each project.

DOCUMENTATION We provide thorough documentation for all lighting solutions, such as DWG files and lighting calculations. The installer can use the finalized lighting plan for setup.

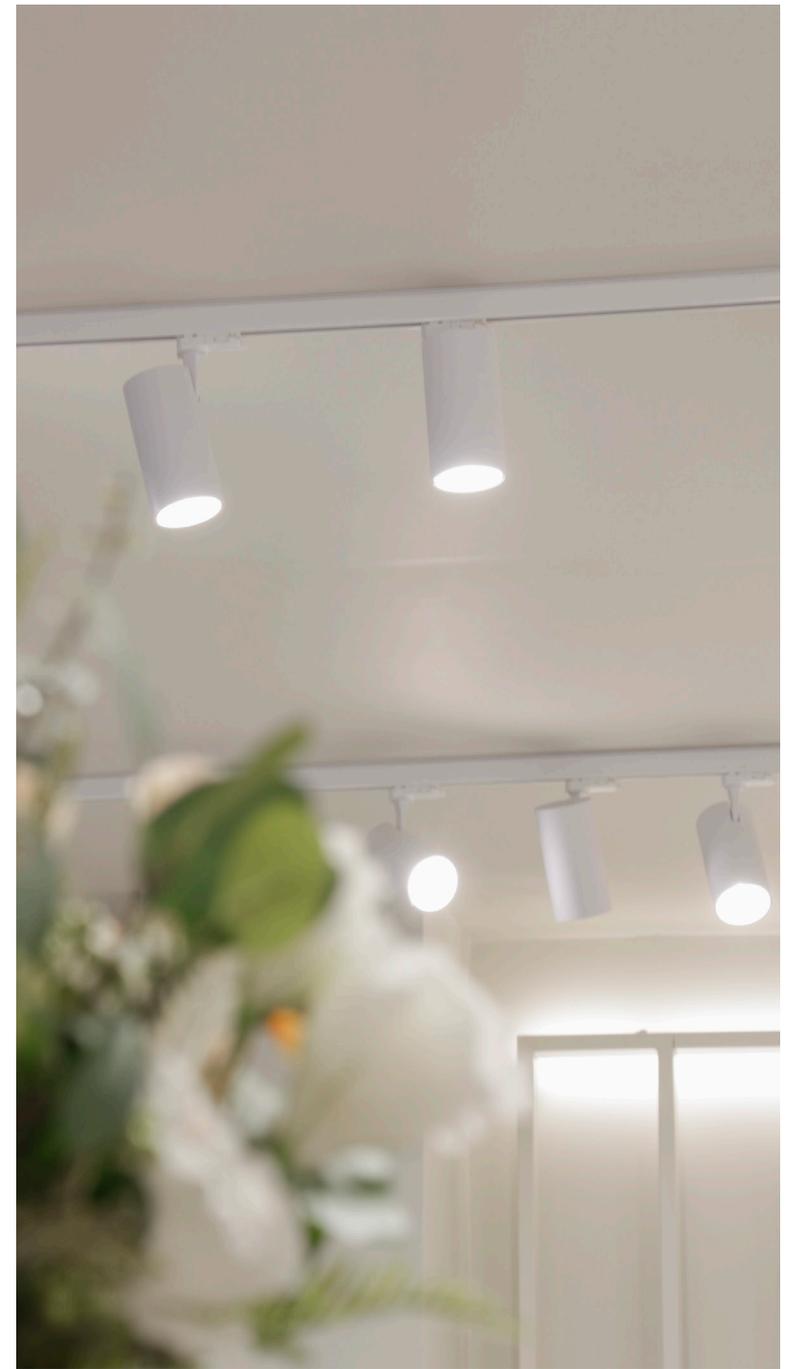

ENERGY CALCULATION Need to know the energy consumption and operational costs of your existing lighting solution? We can provide a detailed overview in kWh and currency – and we can calculate the investment costs and savings of an updated.

LIGHT CALCULATION We offer DIALux lighting calculations, which provide a detailed insight into the light distribution and visualization of the lighting. Proper light distribution is crucial for both product and customer experiences in the store.

SUPPORT Our internal support team is available to guide from the initial stages of a project through to after-sales services related to the operation and maintenance of the lighting solution. With a “one point of contact” approach, we ensure efficient and attentive dialogue, planning, and coordination for optimal service.

DELIVERY We manage procurement, handling, coordination, and freight of the complete lighting solution, ensuring it is ready for installation, regardless of where and when the project is to be delivered.

T-ARCHE DYNAMIC

Product specifications

Model:	T-Arche Dynamic
Size:	Ø80 x 150 mm
mA/W:	Standard - 16W / 18W / 23W / 25W
Optics:	Reflector antiglare 15° / 24° / 36° / 60°
Ra / Kelvin:	Ra92 - 3000K / 3500K / 4000K
Material:	Aluminium
Connection:	Direct - 3F Global track
Control:	On/Off
Lumen:	100-130lm/W - 122lm at 18W

Product description

The T-Arche Dynamic features a minimalist and straightforward design. With its high light output, the T-Arche Dynamic is an effective and flexible choice for lighting retail environments. At Teamtronic, we always offer a standard 5-year warranty on all fixtures.

T-ARCHE DYNAMIC INTRACK

Product specifications

Model:	T-Arche Dynamic Intrack
Size:	Ø80 x 100 mm
mA/W:	Standard - 16W / 18W / 23W / 25W
Optics:	Reflector antiglare 15° / 24° / 36° / 60°
Ra / Kelvin:	Ra92 - 3000K / 3500K / 4000K
Material:	Aluminium
Connection:	Direct - 3F Global track
Control:	On/Off
Lumen:	100-130lm/W - 122lm at 18W

Product description

The T-Arche Dynamic Intrack is designed with an all-in-one solution, making it particularly suitable for retail environments with limited ceiling height. The fixture is visually discreet but maintains high efficiency with a focus on light output and lumen.

ACCESSORIES

FOR T-ARCHE DYNAMIC AND T-ARCHE DYNAMIC INTRACK

Arche Lens

Optics: 15° and 36° beam angle

Dynamic Barndoor

Allows control over light distribution

Honey comb

Blinds and softens the light

Snoot

Shields the light and eliminates glare

Snoot 45

Shields the light and eliminates glare

Arche extended

Extended arm - Option: 50 / 100 mm

T-HIMALIA

Product specifications

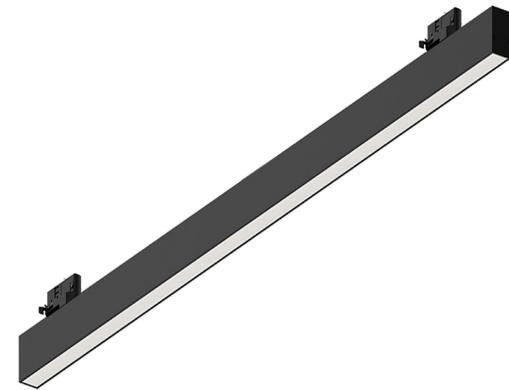

Model:	T-Himalia
Size:	Ø140 / Ø160 / Ø190mm
mAW:	Standard - 10W / 18W / 35W
Optics:	60° Beam angle - Adjustable 355° / 80° vertical
Ra / Kelvin:	Ra92 - 3000K / 3500K / 4000K
Material:	Aluminium
Connection:	Direct - recessed
Control:	On/Off
Lumen:	80-140lm/W

Product description

T-Himalia is an adjustable downlight with effective lighting features. The fixture is particularly suitable for illuminating stores and shop windows, fitting rooms, or highlighting objects that need to be in focus.

T-ARCHE LINE

Product specifications

Model:	T-Arche Line
Size:	604 / 1205 / 1502 x 35 x 62mm
mA/W:	Standard - 25W / 45W / 60W
Optics:	Opal cover - 85° beam angle
Ra / Kelvin:	Ra90 - 3000K / 3500K / 4000K
Material:	Aluminium
Connection:	Direct - 3F Global track
Control:	On/Off
Lumen:	100-150lmW

Product description

With the T-Arche Line, efficiency, light comfort, and design are combined without compromising color rendering and light output. The T-Arche Line allows for the creation of flexible general lighting, making it ideal for retail environments and showrooms.

T-ARCHE DISC

Product specifications

Model:	T-Arche Disc
Size:	Ø300 x 114mm
mA/W:	Standard - 30W / 50W
Optics:	Polycarbonat cover - 120° beam angle
Ra / Kelvin:	Ra92 - 3000K / 3500K / 4000K
Material:	Aluminium
Connection:	Direct - 3F Global track
Control:	On/Off
Lumen:	80-120lm/W

Product description

T-Arche Disc is a modern track light fixture with a classic circular design. The T-Arche Disc can be adjusted and rotated, providing precise control over the direction of light – ideal for dynamic lighting needs in retail environments, showrooms, and offices.

GLOBAL TRAC PRO

Product specifications

Model:	Global XTS
Size:	31.5 x 32.5mm
Length:	1000 / 2000 / 3000mm
Voltage:	220 - 240V
Installation:	Surface / Suspended
Material:	Aluminium
Connection:	Direct
Control:	On/Off - Option: DALI

GLOBAL TRAC PRO is the world's best-selling track system, known for its high quality, long lifespan, and immense flexibility in configuration. At Teamtronic, we stock tracks and fittings for customized track systems at competitive prices.

ABOUT TEAMTRONIC

PROFESSIONAL LIGHTING SUPPLIER

Teamtronic A/S is a Danish lighting supplier specializing in the production and supply of professional LED lighting. Teamtronic was established in 1990, initially focusing on the production of technical components for LEDs – hence the name Teamtronic.

Today, at Teamtronic, we develop and produce finished lighting fixtures for both indoor and outdoor lighting.

We offer a range of carefully selected lighting fixtures, each meeting specific requirements for lighting areas such as offices, schools and institutions, the healthcare sector, the pharmaceutical industry, and retail.
